

STUDY THE DRAFT NUMBERS, YOU MAY BE CALLED SOON

DRAWING WILL BE MADE IN WASHINGTON

Notice of the Call will be Mailed to Each Man Drawn, Procedure when Claiming Exemption

Much Detail to be Worked Out and Many Questions of Those Subject to Draft Cannot be Answered Now

County Auditor C. W. Mahlum, in accordance with instructions from the government, has taken the complete list of registered young men in Crow Wing county, shuffled them up and renumbered them. The numbers which now appear before the names are the numbers by which they will be known when the drawing is made and the number given them at the time of registration does NOT apply.

The drawing which will probably be made next Saturday, will be made in Washington, and the numbers which appear before the names as published below will apply and NOT the numbers in the registration cards.

A notice of the call will be mailed to each man drawn and he must file his claims for exemption or discharge within seven days thereafter and within ten days of the notice he must submit the evidence to the local exemption board to support his claim.

Much of the detail has yet to be worked out and numerous questions which immediately come to the minds of those on the list subject to draft cannot be answered by the exemption board and final information will probably have to be obtained from the board.

Authorities Regard War Situation With Extreme Pessimism

(By United Press)

Washington, July 13.—The authorities here regard the German situation with extreme pessimism. Von Hollweg's scolding of the principle of no annexations and no indemnities signifies to the military experts that the military heads presented statistics showing cold bloodedly the German satisfaction with the situation. The experts say the present developments point to the uselessness of present trench warfare as described in proving a war balance. That naval operations are the only methods to upset the present alignment. That trench warfare is only continuous murder with no prospect of drawing victory. That the U. S. must make a big war offensive or risk all her ships in a smash at Germany's sheltered bay at Kiel, else the existing deadlock will continue.

Entire Cabinet Resigns Kaiser Orders Reforms

(By United Press)

Washington, July 13.—The Dutch newspaper Nieuw Courant claims confirmation of its reports that Von Hollweg and the entire Prussian cabinet has resigned. A state department dispatch prints a letter from the kaiser ordering the immediate introduction of a bill for equal suffrage and electoral reforms.

Hollweg Has Not Resigned

(By United Press)

London, July 13.—Reuters' dispatches from Berlin quote semi-official sources as authority for the statement that Chancellor Von Hollweg has not resigned.

Draft Quotas Announced Minnesota's Quota 17,354

(By United Press)

Washington, July 13.—Net quotas of the first draft has been announced as follows: Minnesota 17,345, Wisconsin 12,876, Iowa 12,749. Allowances made for enlistments since April 18, Minnesota 8,122, Wisconsin 15,274, Iowa 12,672.

Two American Vessels are Sunk

(By United Press)

Washington, July 13.—American vessels Hildegarde and Bowen were sunk July 10th. The crews were rescued.

VANCE M'CORMICK.

He is Adviser to the Experts Embargo Council.

The advisory board of the federal exports council has organized. It consists of M. N. Harley, once chairman of the trade commission, representing the department of commerce; Vance M'Cormick, representing the state department; John B. White of the food administration, Dr. Alonzo B. Taylor of the department of agriculture and E. E. Pratt, secretary.

Railway War Board Directs Placing of Embargo

(By United Press)

Washington, July 13.—The Railway War Board of American Railways association direct all roads to place an immediate telegraphic embargo on shipments of commodities named by Wilson in his embargo proclamation except when accompanied by a federal license. Secretary Redfield simultaneously announces that immediate attention be given to every applicant for a license.

Appropriation of \$640,000,000 Asked for Air Plane Fleet

Washington, July 13.—Chairman Dent, of the house military committee, has introduced a bill for an immense air plane fleet appropriating \$640,000,000.

Export Licensing Plan Causing Uneasiness

Buenos Aires, July 13.—Argentina and U. S. relations over the export licensing plan are causing serious uneasiness.

CROW WING CONNTY'S BIG POPULATION GAIN

Federal Estimate of Crow Wing Co. Population is Given at 26,942, Increase of 10,000

Minneapolis, St. Paul and Duluth Also Give Evidence of Great Growth Since the Last Census Was Taken

Arizona Citizens Organize Loyalty League to Fight I. W. W.s.

(By United Press)

Miami, Ariz., July 13.—"To fight I. W. W. unrelentingly and to the bitter end," citizens of Miami and Glendale have organized a loyalty league following the clashes between I. W. W. pickets and miners. Soliders have been rushed to the powder magazine of the Miami Copper Co. when rumors persist it is imperiled. Serving warrants on the I. W. W. leaders has begun.

U. S. Commander to Maintain Order in Arizona

(By United Press)

Washington, July 13.—General Parker, commander in the southern department has been instructed by the war department to maintain law and order in Arizona in the I. W. W. disturbances.

Armed Guards Will Round Up I. W. W.

(By United Press)

Bisbee, July 13.—700 armed deputies boarded a train for Osborne, taking this action following reports that the I. W. W. were preparing for an attempted invasion of Bisbee. The guards will round up the industrialists again and hold them prisoners until the government takes a hand.

Abandoned I. W. W.'s Threaten Vengeance

(By United Press)

Douglas, Ariz., July 13.—Left on a dog track at Hermanas, New Mexico, 1200 I. W. W. fling defiance at the armed guards as the latter leave them without engine or caboose to return to Bisbee. "We'll burn cars and hold up the first west bound train through this station," they shouted. "You'll see us back in Bisbee soon."

Sweden Condemns American Export Licensing Plan

Stockholm, July 13.—Sweden severely condemns the export license plan of the United States as an attempt to force Sweden into the war.

May Settle Danbury Hatters Case

Danbury, Conn., July 13.—It is believed the Danbury Hatters case will be settled without auctioning off the homes of 141 workers for damages in boycott suit. A lump sum may be accepted in settlement.

Crow Wing county has a population of 26,942, according to the latest estimate of the census bureau, made at the request of the war department on the basis of draft registration June 5. Here are some of the government census figures for various years:

1890	8,852
1900	14,250
1910	16,861
1917 estimate	26,942

Since 1910 the county has gained considerably due to substantial impetus and not due to any booms or inflated attraction.

Large cities of the state have gained. Duluth has a population of 107,242 according to the estimate of the census bureau. Since 1910 Duluth has gained over 30,000. Minneapolis is credited with 434,453 and St. Paul with 249,657 under the new estimate. Duluth's growth has been proportionately the equal of that in the Twin Cities.

St. Louis county's new estimate is 124,324; Carlton, 19,474; Aitkin, 12,758; Beltrami, 24,839; Cass, 13,659; Chisago, 12,921; Clay, 23,187; Crow Wing, 26,942; Itasca, 27,600; Koochiching, 15,740; Pennington, 9,356; Pine, 16,612.

The government has qualified its statements, making clear that the statistics are not infallible. "The total draft registration was 9,659,382 which was divided by the total population of the continental United States exclusive of Alaska, estimated at 103,635,300," the government statement says.

"The result is .0932. This was assumed to represent the proportion which the registration in each geographical unit bears to the total population thereof."

Figures on state population which would have stood as official until 1920 but for the new estimate are altered to a degree as the following figures will show:

	Today's Estimate	Former Estimates
State		
Minnesota	2,377,938	2,296,024
Wisconsin	2,576,931	2,513,758
Michigan	4,015,053	3,047,580

Defense Council Asks Women to Abandon Styles

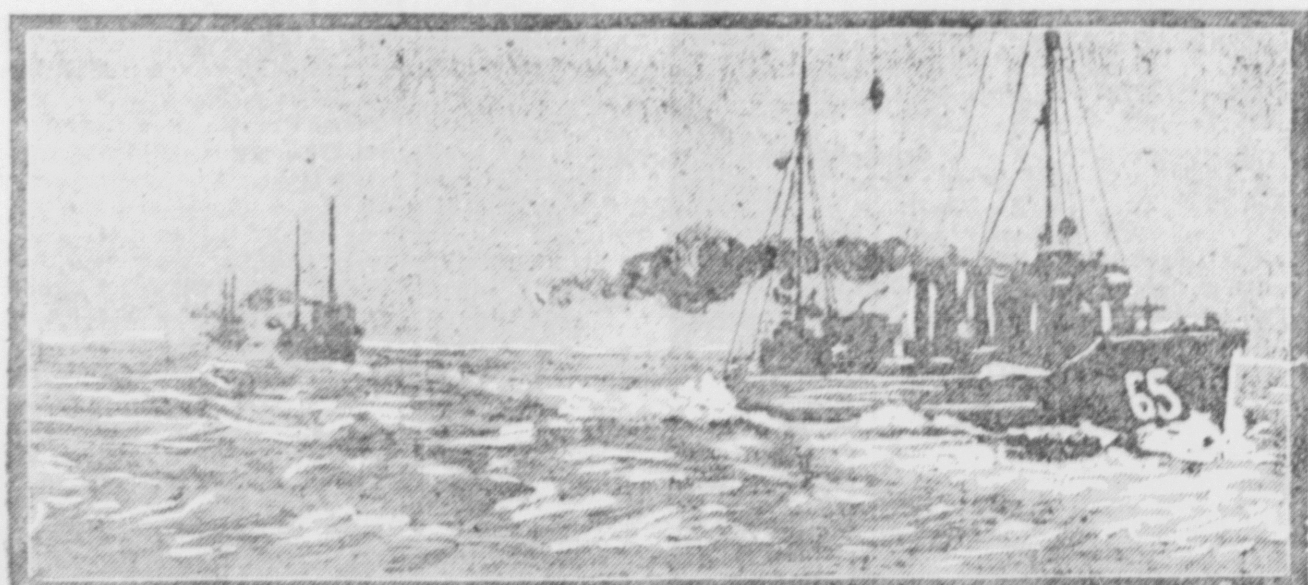

(By United Press)

Washington, July 13.—The Defense Council's women's committee asks women to abandon styles during the war. Wear clothes that you have so that man power will be released for war.

LORD NORTHCLIFFE HEARS TWO OCEANS.

New York, July 13.—The breakers at Cliff House, San Francisco, and the surf at Coney Island, New York, more than 3,500 miles apart, were heard simultaneously by the telephone here by Lord Northcliffe, head of the British commission in this country, and a number of American and English army officers at the offices of the American Telephone and Telegraph company.

LOCAL NEWS NOTES

News of Parties, Visitors, Visits, Deaths, Accidents, Etc., gratefully received by the Dispatch. Both phones, Northwest 74.

Mrs. W. C. Cobb went to Deerwood this afternoon.

For spring water phone 264. Mrs. Charles Sunley is at the Windsor hotel for the summer.

Mrs. H. E. Brooks is a guest of Miss Irene Lowey at Merrifield.

One of Graham's cement houses for rent. 620 North 6th St.

Mrs. Losey and sister Miss Robinson are visiting a few days in Anoka.

Mr. and Mrs. Walter H. Cobban of Shore Acres were visiting in the city.

Homes, lots, E Z terms. Nettleton.

Mrs. M. T. Dunn and family of Minneapolis are at Hubert for the summer.

Mrs. W. W. Latta and mother, Mrs. A. Spangler, went to Laverne this afternoon.

Mrs. S. A. Saxrud was brought to St. Gabriel's hospital, Little Falls, for an operation.

A want ad will do it if it can be done. Read the want ads and solve your troubles.

Nettleton stands for every family owning their home. He'll help too.

George Hess has gone to Duluth where he is serving on the grand jury in the federal court.

Purity Ice Cream Co. Both Phones, N.W. 727, Tri-State 6268.

Pelican lake's Nebraska colony of summer tourists is daily receiving accessions of professors.

Bus service to South Long Lake community picnic. Leaves 9 A. M. from American Cafe. 50c each way.

Frank and Helen Bane are visiting their grandfather, F. W. Lyon, at Birch lake near Little Falls.

John Wahl and St Olson of Duluth were in the city and also attended to business matters in Barrows.

Roy Warner, son of R. D. Warner, while in bathing in the Mississippi river, badly cut his foot on glass.

The first annual midsummer ball will be given at the Lum park dancing pavilion on Friday evening, July 20.

Miss Cecil Witham left for Aitkin where she will play for a dance to be given at Dr. Kelley's summer home.

Mrs. C. A. Allen and daughter of Rockford, Ill., are visiting Mr. and Mrs. Albert Allen, 215 North Sixth street.

Guests of Mrs. George Bergegreen are her sister, Miss Edith Michaelson and niece, Miss Helen Samuelson, of Cloquet.

A. B. Hostetter of Duluth is in the city and will attend the big community picnic at South Long Lake Saturday.

There will be no services at the Swedish Methodist church Sunday as the pastor, Rev. C. N. Holmberg, is at Fleming lake.

If you want a tenant, tell what you have to offer—and your message will reach the interested people. Telephone Northwest 74.

Miss Mary Loftis, guest of her uncle and aunt, Postmaster and Mrs. H. P. Dunn, has returned to her home in Minneapolis.

Ray Sellers of Deerwood was in town Thursday. He is now wholesaling candy and cigars and covers his territory with a car.

Andrew Berglund has returned from St. Paul where he attended the Hotel Men's convention. He also paid a visit at Fort Snelling.

Mr. and Mrs. W. H. Wilson of Duluth are spending the week end with Mrs. Wilson's son, Paul G. Clarkson of 403 North Third street.

Dr. and Mrs. Howard G. Ingersoll, Mrs. N. H. Ingersoll, Mrs. Thomas Beare and C. A. Albright motored to St. Cloud today to attend the circus.

Mr. and Mrs. Fred Johnson, who have been visiting in Cross Lake and who were guests of Mrs. Anna Frost in Brainerd, have returned to their home in Minneapolis.

Your classified ad will carry your message direct to those for whom it is written. Is not that real service? Telephone Northwest 74 and the Dispatch will take your ad.

Mrs. E. M. Westfall, who has been visiting old friends in Brainerd and vicinity for two months, has gone to Montana, where she will visit for some time before returning to her home in Pasadena, Cal.

There will be no church services at the Bethlehem Lutheran church Sunday morning as the pastor, Rev. M. L. Hostager, will be at South Long Lake. There will be a song service at the Brainerd church in the evening.

For a first class job of Oxy-Acetylene welding go to Herbert Peterson at the Woodhead Motor Co. garage.

Dr. Edwin O. Swanson, now located at the City and County Hospital of St. Paul, visited his father, brothers and sisters in Brainerd. In company with his brothers, Attorneys G. S. and Hilding A. Swanson, he motored on the Cuyuna Iron range.

James Murphy and sister, Miss Bess Murphy, of this city, Miss Mattie Lindsley of Pomona, Cal., and Frank Poetz of St. Paul, have returned from a tour of Itasca park, Cass Lake, Grand Rapids, etc., made in Dr. H. E. Murphy's big green Mitchell car.

Mr. and Mrs. Harold Webb are the parents of a pretty baby girl born Wednesday. Mother and child are at St. Joseph's hospital and doing well. Harold wears a broad smile of happiness on his face and distributed two boxes of cigars at the foundry.

Bus service to South Long Lake community picnic. Leaves 9 A. M. from American Cafe. 50c each way.

Henry I. Cohen this morning showed Fred T. Lincoln how to catch a mess of fish before breakfast at Hubert. And Mr. Lincoln and Mr. Cohen landed the fish and remembered Brainerd friends, the stay-at-home fellows, with some of the beauties.

It's the songs ye sing and the smiles ye wear—James Whitcomb Riley. But the song that's sweetest, And the smile that's brightest, Comes from your own home, Where the heart is lightest—Nettleton, P. B.

Relatives to the number of over a hundred gathered at the old Dower homestead in Thomastown last Friday afternoon and celebrated the birthday anniversary of John Dower. A movement was started by Mr. Dower among the relatives present to form a stock company and buy back the old homestead.—Verdale Sun.

Each Man Exempted To Receive Badge.

Washington, July 13.—To prevent embarrassment among those who are exempt from the national army the war department has decided to give with each exemption certificate a bronze badge bearing the inscription, "Exempted—U. S."

The design for this badge has been approved by Secretary Baker and several already are in process of manufacture. It is intended to protect those exempted from any suspicion of being slackers.

A Cent a Day.

If a man saves a cent each day he will not need to risk the loss of a friend at the end of the year by trying to borrow a dollar.—New York Globe.

BARON HARDINGE.

His Resignation Is Linked With That of J. Austen Chamberlain.

**BRITISH SECRETARY FOR INDIA RESIGNS**

London, July 13.—Announcement of the resignation of J. Austen Chamberlain, secretary for India, was made here. This is the first fruit of the Mesopotamia commission's report and lent a dramatic touch to the debate on that report in parliament. It also was announced that Baron Hardinge, former viceroy of India and now under secretary for foreign affairs, had declined to accept his resignation.

It is considered quite possible that further developments may occur on the return of the king to the capital. Great sympathy is felt for Mr. Chamberlain, who is regarded as the victim of the peculiar Indian administrative system.

Mr. Chamberlain made the announcement himself in the house in a speech defending his position as affected by the commission's report. The report has proved a severe blow to the government, which had to make a further concession to popular resentment.

KILLS TWO AND HIMSELF

Mauston (Wis.) Man Believed to Have Been Unsound Mentally.

Mauston, Wis., July 12.—When Louis Alsbacher, city treasurer, failed to appear at his office Chief of Police Bentley went to the official's home and breaking in the door found Alsbacher, his mother and David Gray dead from bullet wounds.

Gray recently had purchased the Alsbacher home and it is the theory of the police that he killed the other two and then himself as a result of a dispute over the deal.

Chief Bentley said his investigation tended to indicate that gray was unsound mentally.

GUARD YOUR HEALTH.

Look to your health, and if you have it praise God and value it next to a good conscience, for health is the second blessing that we mortals are capable of, a blessing that money cannot buy.—Isaac Walton.

PUBLIC HIGHWAYS IN KANSAS.

Adequate Systems of Road and Bridge Construction Needed, Says Engineer.

"Daily use of public highways in Kansas has developed more rapidly than any other single activity within the state," asserted W. S. Gearhart, state highway engineer.

"Ten years ago there were practically no automobiles, while today there are more than 114,000 in Kansas, or one for each three families and more than one for each mile of road. This means that the highways of Kansas are carrying approximately 4,600,000 more horsepower than ten years ago.

EXAMPLE OF A PERMANENT BRIDGE.

The auto truck and tractor business has scarcely been touched, but it is now generally recognized that this new form of traffic is destined to replace old Dobbin on the highway in the very near future.

"These methods of transportation require new and adequate systems of road and bridge construction and maintenance. The condition of the roads and bridges is many years behind the traffic.

"Our roads were planned for horse drawn traffic, moving at a maximum speed of about ten miles an hour, and we have not even rounded off the right angle corners in most cases. Even the weeds and hedges are not cut at these corners, and we are only beginning now to talk about the elimination of the railroad grade crossings. The old drainage structures we call bridges and culverts were not designed in most cases to carry any given load. They were just built. Then fast driving signs were put on the bridges to prevent the boys when out driving with their best girls from rattling these old structures to pieces.

"Much as we need improved roads we need permanent bridges and culverts more. It is more important that all of the bridges and culverts be in good condition than that all the roads be kept in first class repair, for if the road is to be used at all the drainage structures must be kept up. At the present time it is not practical, nor is it necessary, to surface all of the road, but a 'junk pile' of wood or tin for a culvert or a 'scrap heap' of wood or steel for a bridge is just as much out of place and just as expensive to maintain on an earth road as on a highly improved boulevard. For the bridges and culverts in the lane rot out and rust out and wash out as fast as on the most important state roads. It is not the traffic in most instances that destroy these structures, but the elements."

Daniels Tells Congress Need for Lighter Vessels Is Pressing.

Washington, July 13.—Secretary Daniels asked congress for a deficiency appropriation of \$100,000,000, mainly for additional destroyers and submarine chasers and to speed up work on the general building program.

In a letter to Chairman Fitzgerald of the house appropriation committee the secretary pointed out that this \$115,000,000 appropriated for those purposes March 4 has already been expended or tied up by contracts.

"The present and the probable future military situation is such as to make imperative a rapid and continuous supply of new destroyers," the secretary said. "A failure of this program would seriously embarrass the government in its plans for the successful prosecution of the war. This program cannot be provided for unless funds are available."

NEW "DRY ZONE" ORDER

Issued at Washington to Cover Training Camps.

Washington, July 13.—A "dry zone" five miles wide, unless there is a city or town within that limit, is to be thrown around all camps for the mobilization or training of troops, the war department announced.

If the municipality is within even one-half mile of the camp, the dry zone is to be limited to that width in length.

Great Sorrow

Ameliorated by a floral tribute designed and supplied by the
DULUTH FLORAL COMPANY
Northwest's Leading Florists

that direction. But if the camp is located on the edge of a town the prohibition will extend to a width of one-half mile into the town.

Prohibition under a penalty of \$10,000 fine also is imposed against the maintenance of any immoral houses within the limit of five miles in any case, even where the camp is on the edge of a town.

New York Lawmakers Called.

Albany, N. Y., July 13.—Governor Whitman has issued a proclamation calling an extraordinary session of the legislature July 31. The principal matter to be considered is the state food control bill.

Utah Indians on War Path.

Ely, Nev., July 13.—It is said to have been smoldering in the tribe of Indians on the Deep Creek, Utah, reservation since two of their number were arrested for failure to register June 5 for the selective army draft, broke out, according to information received here, when the Indians left the reservation, stole horses and began threatening settlers along Snake creek.

THE BEST THEATRE

WOMAN'S REALM

One Reception After Another

By MARGARET MASON
(Written for the United Press)

In Washington there's much to do. You really cannot nap at all. And everywhere the women dress at social stunts or war work stress.

In style that's smart and capital. Washington, July 13.—In Washington its just one reception to fore-earn commissions after another.

Naturally these social functions have brought out much in sartorial fripperies. Two fripperies brought out are fans and trains.

The first of these are well in hand but the second are not so easily handled.

Nevertheless trains have a large following and fashions stamp of approval. In the crush of the reception to the Russian Commission at the Pan-American Union building, most of the trains present had many other stamps besides fashions. It was most upsetting the way large wives of Senators and Congressmen left their trains around carelessly underfoot to be stumbled over.

The perfect way in which the "First Lady of the Land" managed her train of silver grey chiffon and taffeta leaves no doubt as to her absolute fitness of her position. Managing a train gracefully and adequately requires more finesse, savoir faire, and just plain muscular control, than managing a multitude. Mrs. Wilson did it with one hand, too, between handshakes, while she rhythmically swayed a huge natural feather fan in the other.

I shall never know whether Margaret Wilson is an adept at train management or not for she kept her's of Nile green charmeuse, slung high and dry out of any possible doormat contact over a well rounded arm that fluttered a well spangled fan.

Mrs. Tom Walsh's yellow taffeta gown with puffy pannier skirt and tight pointed bodice with terra cotta velvet ribbon garniture was trainless, but her terra cotta feather fan in size and coloring more than made up for any such deficiency.

Mrs. Fred Britton, in purple sequins and net had a feather fan of exactly matching purple flush.

Dining at the Sherham, Alice Roosevelt Longworth in black tulle and silver with shadows under her seductive eyes as dusky as her gown played with her food and a fan of black ostrich.

At a nearby table a beautiful unknown was an exquisite vision in a lingerie frock of shell pink batiste lavishly embroidered in garlands of roses. Her drooping leghorn had for sole trimming a garland of the embroidered roses appliqued across the front of the crown. More pink roses adorned the lady's cheeks but not applied ones.

She looked like "Meet Me in Rose Time Rose" with variations and of course she rose with all the others when the orchestra gave forth "The Star Spangled Banner."

Another striking leghorn hat on a lurching brunette at the New Willard had the top of its broad droopy brim covered with pleated black maline that fell over the edge for two inches. A broad band of corn color pleated edged ribbon around the crown with a bow in front completed the trimming.

On account of the customary Washington heat white is a favored colorless scheme.

Mrs. Hiram Johnson was a particularly conspicuous and chic Phoebe Snow the other day motoring in Rock Creek Park, in embroidered white crepe Georgette with a surprise collar of fillet lace and a chic little turned up hat of white satin.

I lunched with a multi-millionaire's wife the other day who was gowned in a simple little white voile dress that she proudly announced cost but twelve dollars. She said on account of the war she was limiting her frocks to fifteen dollars apiece and her husband was wearing ten dollar suits. This seems to be the sartorial policy of one faction while another equally as strong is preaching more frills and furbelows as a physiological effect of brightening up the mental outlook, relieving tense and strained conditions.

So you can take your stand according to your wardrobe. If you run up an alarming bill at the modistes and dressmakers for elaborate costumes and chapeaux you can quiet an irate husband with the same adequate and elastic excuse that is used by the simple dress advocate who refused to accompany her socially inclined spouse to a soiree because she hasn't an appropriate gown—C'est la guerre. Already they are working the phrase overtime here in Washington.

USE EVERY DROP OF MILK

Don't throw away left-over skim milk, says the United States Department of Agriculture. It is nutritious food and every drop of it should be used. One way to utilize it is to make milk-vegetable soups.

Milk-Vegetable Soups
To each 2 cupful of milk use 1 tablespoonful of flour, 1 tablespoonful of butter, 2-3 of a cup-ful of a thoroughly cooked vegetable, finely chopped, mashed or put through a sieve, and salt to taste. Thicken the milk with the flour as for milk-lents.
Practically any vegetable except tomatoes may be used with the other ingredients as stated. If tomatoes are used a little soda should be added to them to prevent the milk from curdling.

For Bride to Be

A shower was given last evening for Miss Frances Seigel by Miss Monica McGill and Miss Rose Scallen at the home of the former. The color scheme was carried out in pink and white and the floral decorations were pink and white carnations. The gifts for the bride-to-be were hung on ribbons fastened to a sprinkling can which was suspended from the ceiling. Refreshments were served and the evening was spent in music and dancing.

Surprise Party

Miss Isabelle Worden was pleasantly surprised by her pupils Wednesday night. Those assisting in serving were Mrs. John Holvick and Mrs. John Worden. Miss Worden was presented with a beautiful hand mirror.

At Community Picnic

Mrs. W. H. Gennell of Brainerd and Mrs. Blake of Minneapolis will be present at the community picnic and speak to the women on the subject of the Minnesota Public Safety Commission.

Meeting Postponed

The Loyal Soldiers will not meet this week and be entertained by Mrs. M. J. Reis. The meeting has been postponed for a week from Friday night.

Luther League

The Luther League of the Swedish Lutheran church will go to the J. C. Barber farm Sunday, leaving the church at 2:30 o'clock. Those desiring to go should notify Wm. Swanson or Ed Wang.

PACKING GOLD IN KEGS.

Care Taken in Preparing the Mene Metal For Shipment.

When a gold shipment is to be made by ship the necessary number of kegs are taken in a truck to the assay office where they are received at a door in the rear. The gold bars are then placed on a hand truck and rolled to the kegs. In the presence of the assayer and the officials of the assay office the bars are packed in the kegs, and sawdust is placed around them to prevent abrasion. When the heads of the kegs have been placed over the packed bars a piece of red tape is stretched across and fastened between the chime and the edge of the head. The seal of the shipping house is then attached to the head and the bottom of each keg.

After sealing the kegs are rolled to the wagon and lifted on. It takes two men to handle each keg, as there are ten bars to a keg, with a total gold weight of about 190 pounds. It may be mentioned that \$100,000 weighs in gold about 380 pounds, and \$1,000,000 weighs 3,800 pounds. Some time ago one of the officials of an assay office compiled figures showing how much gold a man could actually handle. It is a singular thing that great difficulty is experienced in carrying gold for any distance. The weight seems to be more "dead" than that of other metals, although that may be an illusion.

For instance, the average man could carry 100 pounds of gold one mile without much discomfort. Its value would be about \$26,000. A strong man could carry, say, 150 pounds a mile, reaching the end of his journey with just under \$40,000. A very powerful man might carry 200 pounds, or nearly \$53,000, a mile without exhaustion. Carrying gold is almost as difficult as getting it. —Los Angeles Times.

For Men, Women and Children

Young and old find in Foley's Honey and Tar Compound a true friend when suffering from coughs, colds, croup, whooping cough, asthma or hay fever. Mrs. Chas. Reitz, Allens Mills, Pa., writes: "I have used Foley's Honey and Tar for eleven years and would not be without it." When you get Foley's, you get the genuine. H. P. Dunn, druggist.—Advt. n.wf

DOROTHY GISH

A Spirited Madcap in "Her Official Fathers," will appear at the Best Tomorrow

A riotous young madcap who causes no end of trouble for her guardians, the officials of a banking company, is the character assumed by Dorothy Gish in the Triangle-Pine Arts play, "Her Official Fathers," which will be shown at the Best theatre tomorrow.

Miss Gish goes through an unusual costume cycle during this play. Among the varied attire which she dons is a curious Chinese negligee.

Dorothy Gish in Triangle Play, "Her Official Fathers."

with trouserettes and a round Mandarin hat. It is because of her love for such fine feathers that she has a nifty tilt with one of her guardians, who objects to her extravagance. In fact, she starts a run on the bank before getting her bill approved.

A company of Chinamen recruited from the Los Angeles Chinatown appears in the scenes depicting an oriental restaurant and curio shop. It is in this Chinese bazaar that Dorothy smashes a \$600 vase and is threatened by arrest unless she pays the amount at once.

At the Best Tonight

"The Ghost of Old Morro," an Edison picture released through Kleine-Edison-Selig-Essanay will be exhibited at the Best theatre tonight.

This story was written by James Oppenheim, noted for his splendid contributions to the motion picture industry, and was directed by Richard Ridgely who deserves much praise for his remarkable direction of this photodrama and many others.

The scenes of this picture were filmed in and about the region of Cuba, where many picturesque settings were obtained.

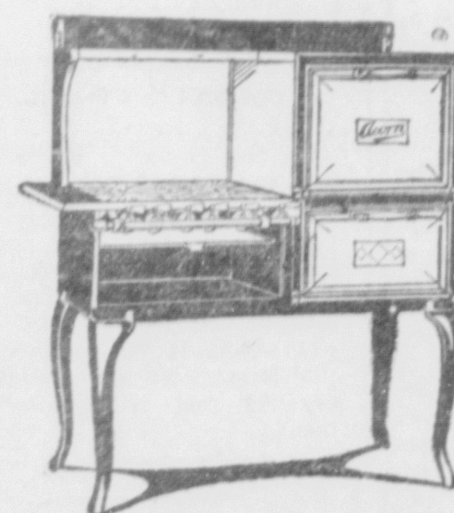

Mabel Trunnelle and Robert Conness, co-stars of "The Ghost of Old Morro" are particularly fitted for the roles they portray, as is also the splendid all-star cast selected to support them.

An evening of entertainment is assured all those who view "The Ghost of Old Morro."

Beware of Ointments for Catarrh that Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.—Advt. Apr.

SAVE EVERY BIT

Don't Let a Pound of Food Rot on the Ground.

REDUCE YOUR GROCERY BILL.

Here Are the Points You Need to Know About Canning Vegetables and Fruits For the Wintry Days Ahead of Us All in Wartime.

[Prepared by National Emergency Food Garden Commission.]

Select sound vegetables and fruit. If possible, can them the same day they are picked. Wash clean and prepare them.

Have ready on the stove a can or pail of boiling water.

Place the vegetables or fruits in cheesecloth or in some other porous receptacle—a wire basket is excellent—for dipping and blanching them in boiling water.

Put them whole into the boiling water. After the water begins to boil begin to count the blanching time.

The blanching time varies from one to twenty minutes, according to the vegetable or fruit. When the blanching is complete remove the vegetables or fruits from the boiling water and plunge them a number of times into cold water to harden the pulp and check the flow of coloring matter. Do not allow to stand in cold water.

The containers should be thoroughly clean. It is not necessary to sterilize them in steam or boiling water before filling them, for the reason that in the cold pack process both the insides of containers and the contents are sterilized. The jars should be heated before the cold product is put in them.

Pack the product into the containers, leaving about a quarter of an inch of space at the top.

With vegetables add one level teaspoonful of salt to each quart container and fill with boiling water. With fruits use sirups.

With a glass jar always use a new rubber. Test the rubber by stretching or turning inside out. Fit on the rubber and put the lid in place. If the container has a screw, turn as hard as possible, but use only the thumb and little finger in tightening it. This makes it possible for steam generated within to escape and prevents breakage. If a glass top jar is used, snap the top ball only, leaving the lower ball loose during sterilization. Tin cans should be completely sealed.

Place the filled and capped containers on the rack in the sterilizer. If the homemade or commercial hot water bath outfit is used some authorities insist that enough water should be in the boiler to come at least one inch above the tops of the containers and that the water in boiling out should never be allowed to drop to the level of these tops. Begin to count processing time when the water begins to boil.

At the end of the sterilizing period remove the containers from the sterilizer. Fasten covers on tightly at once; tip each container over to test for leakage, and store. Be sure that no draft is allowed to blow on glass jars, as it may cause breaking. If jars are to be stored where there is strong light, wrap them in paper, preferably brown, as light will fade the color of products canned in glass jars and sometimes ruin food value.

THE FEMINE SCOUT.

All Over the Country Girls Are Donning This Rig.

Cotton khaki cut just like a soldier boy's is the uniform adopted by girls who are learning to use firearms for

READY TO SERVE.

home defense. Leggings over tan boots and a red silk bandanna kerchief as necktie give a picturesque dash to the somber khaki.

Timely Suggestion.

To make the old lids of fruit jars look like new boil them in weak vinegar twenty minutes and then scrub with soap and a brush.

Gabriel, the word which is not in itself distinctive, but merely a description of the angelic office, is used as a proper name or title in Daniel viii. 16, ix. 21, and in Luke i. 19, 26.

Macaroni prepared in any of the various ways in combination with cheese, butter and tomatoes is nourishing.

FRIDAY, JULY 13, 1917

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds.
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

Save the waste and win the war.

Press the waist and win the girl.

Watch your step today, its Friday, July 13.

Blasbee had a round up the other day and the Arizona town shipped out 1,000 I. W. W's. As consignor and shipper, however, there was omitted the very important news item as to destination of the cargo.

The war backfires into benefits too. Witness the tremendous development in mining and shipping of manganiferous ores in Crow Wing county, the boost to agriculture, the community feeling created, the impetus to river traffic.

LATEST IN GUN STOCKS

Experiments of Trapshooters Causes Stock to be Straightened More Every Year

BY "TRAPSHOOTER"

(For National Sports Syndicate)

Trapshooting has caused shooters to experiment with straight and straighter stocks till they have now lifted them to the altitude of comb and heel that a few years ago would have been looked on as extreme.

Moreover, this straightening of the stock for trapshooting has been found to be of such advantage for pointing at flying targets it has by its influence straightened the stock of the field gun and many are now using the same or a very slightly modified stock on upland birds.

And now we are beginning to see the comb and heel of equal measurements with numerous instances of the heel higher than the comb. Later German, a shooter in the very first row, advocates equal measurements for comb and heel. He shoots a gun having an inch and one-quarter drop at both comb and heel, thereby giving to the stock no pitch whatever.

Some may say that this is all well enough in a trap gun. But Mr. German will take this same gun and snuff out the wildest targets that can be thrown with a hand trap, targets that have an "english" on them to such an extent that they can be lifted away from the earth like the horn of the new moon.

There is this much about it, a stock without pitch, in your measurement, will not hook onto your cheek bone when it drives straight back at the moment of firing.

Lino's Busy!

"Give me Lyons 2442," said the man at the telephone trying to get a friend in the up state town.

"Lyons busy," came the familiar expression from Central—Yonkers Statesman.

RUSSIANS MOVE NEARER LEMBERG

Capture of Kalusz Is Further Menace to Capital.

HILLY COUNTRY HALTS ADVANCE

Further Movement West of Stanislaw and Crossing of Dniester Would Cause General Retirement of German Forces.

London, July 13.—Another step in the outflanking of the Austro-German armies protecting Lemberg on the east has been achieved by the Russians, who have crossed the River Lomnica and captured Kalusz. Beyond the Lomnica and south of the Dniester, west of Halicz, General Korniloff's advance continues.

When the Russians occupied Kalusz after forcing a passage of the Lomnica they had advanced twenty miles northwestward from Stanislaw in five days.

In the same time the Eighth Russian army took Halicz and crossed the Dniester there and began an advance between Stanislaw and Bohorodseany. A great wedge has been torn in the Austro-German line south of the Dniester and the army headquarters in that region were headed in the taking of Kalusz.

Blow to Lemberg.

The taking of Halicz Tuesday was a threat against the Austro-German line northward through Brzezany along the Zlota Lipa and the crossing of the Lomnica and an advance beyond is a blow to the security of the line protecting Lemberg.

Should the Russian advance west of Stanislaw continue unchecked and should large Russian forces be thrown across the Dniester in the region of Halicz the Zlota Lipa line, unbroken by the Russian onslaught of July 1, would be turned, making a general retirement inevitable.

On the southern end of the Stanislaw front, which is the foothills of the Carpathians, the Russians are not advancing as rapidly as on the northern end. The enemy is taking advantage of the hilly country and has checked momentarily attacks west of Bohorodseany.

In France the British have driven off German raiding parties near the Belgian coast and west near the Belgian coast and west of Queant, south-east of Arras. The aerial activity has been more pronounced and ten German airplanes were driven down by British airmen, three of whom failed to return to their base.

"MONKEY WRENCH" GRAFT

Used by New York Police to Swindle Auto Owners.

New York, July 13.—"Monkey wrench graft" is a new form of getting money illegally which was charged in the district attorney's office against twenty-five motorcycle policemen.

The scheme is for a policeman to hand an out of town chauffeur summons to appear in court for speeding. The chauffeur received also a card directing him to an automobile supply house. There he was told the case would not be pressed if he purchased a monkey wrench. For this implement he had to pay an exorbitant price.

Books of supply houses have been subpoenaed for inspection by the grand jury.

These books, the prosecutor's office said, would disclose evidence of the Monkey wrench graft.

DEMAND BUREAU ABOLITION

Minnesota Indians Denounce Federal Officials as Incompetent.

Benidji, Minn., July 13.—A resolution demanding that the bureau of Indian affairs be abolished and charging that officials at the head of the bureau are incompetent was adopted here at the council of Minnesota Chippewas.

Copies of the resolution were ordered sent to President Wilson, the joint committee of the house and senate on Indian affairs and Minnesota's senators and representatives in congress.

Claims against the United States government aggregating \$10,000,000 were considered at the session.

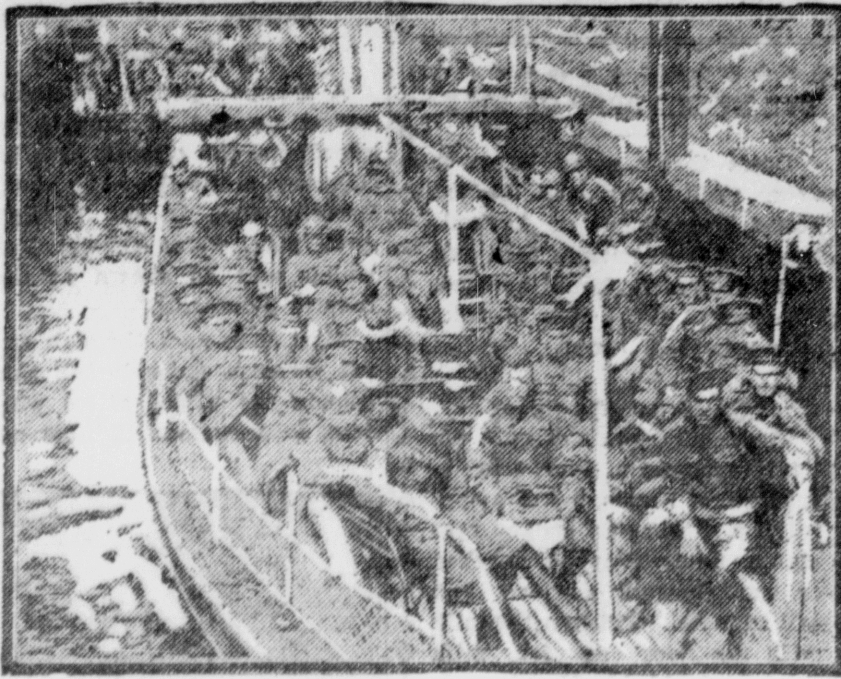

American Fleet at Uruguay.

Montevideo, Uruguay, July 13.—The American squadron arrived here by sea escorted into the harbor by Uruguayan warships. The president of the committee of foreign affairs and the chamber of deputies met the squadron and invited the officers and men to come ashore. Thousands of persons gathered to witness the arrival of the Americans. Business was virtually suspended. The city is profusely decorated in honor of the visitors.

Plot Against Oil Fields Bared.

Washington, July 13.—Senator Sherman has turned over to the war department a letter received from Brownsville, Tex., giving details of an alleged plot among German sympathizers there to ship explosives into Mexico for the purpose of destroying the great allied-owned oil fields there.

American Soldiers in Outing On the Thames

The hearts of Londoners have been opened to the American soldiers who accompanied or followed General John J. Pershing to London. This photograph shows a boat load of them on the Thames looking over the historic landmarks of which they learned in their school histories.

Willard May be Through With Fight Game

BY H. C. HAMILTON.

(United Press Staff Correspondent.)

New York, July 13.—The pacifist heavyweight champion, Jess Willard, probably is all through with the fight game. Never a lover of the game which gave him fame and his fortune, Willard has purchased a circus, fired his managers, and now, presumably is ready to call it off.

There is nothing startling in a prediction that Willard is through. He could hardly afford to risk public censure through taking on some of the lesser heavyweights, and of the few men available, there isn't a one who wouldn't be able to give King Jess the fight of his life.

The action of the champion in getting rid of Tom Jones and Jack Curley is commendable in a sort of way, for it eliminates the syndicate which put the world's champion to work in a circus instead of sending him out to fight—which was expected of him by a public grateful for Willard's success in bringing back the world's title to the white race.

Willard has declared there isn't a man of sufficient ability to meet him. However, he said this before Fred Fulton succeeded in knocking out Sam Langford—something no other man ever could do. Willard long ago adopted a policy of no fights with the colored men—breaking the rule only once in order to win the world's title from Jack Johnson. It is doubtful, just the same, if his best days would have done him any good in a bout with the Boston Tarbaby, regardless of the great difference in their sizes.

If Willard yearns for a few more thousand dollars and a chance to retire gracefully from the fight game for all time the chance is just begging for him. Fred Fulton looms as his most formidable rival. Several promoters are eager to stage the bout. The public would go wild over a twenty round go between the pair. And there is no valid reason for holding it off. Willard would confer a favor by agreeing to the fight.

Deer Are Great Swimmers.

If a boy were asked to name an animal that could swim a long way it is probable that he would think of almost any other animal before he named a deer.

If you told city folk that deer have been known to swim clear across the sound, from Long Island to Connecticut, they would probably laugh at you, yet boatmen along the coast know this to be true. Deer will often take to the sea when they are closely pursued by the hounds, and they have been known to stay in the water swimming until the dogs got tired and went away or until night fell and sheltered them.—New York Sun.

CONSIDER OTHERS.

Be considerate to others. A little thought will show you how vastly your own happiness depends on the way other people bear themselves toward you. Turn the idea around and remember that just so much are you adding to the pleasure or the misery of other people's days by your attitude toward them.

Keep Fit and Feel Fine

Poley Cathartic Tablets thoroughly cleanse the bowels, sweeten the stomach, and arouse the liver. For indigestion, biliousness, bad breath, bloating, gas, or constipation, no remedy is more highly recommended. Don't be careless. See that your bowels are regular. Keep fit. Feel fine. R. P. Dunn, druggist, myr

There are More Than 3,500,000 Motor Cars in U. S.

(By United Press)

Washington, D. C., July 13.—In 1916 there were 1,667,332 more motor cars registered in the United States than in 1915, an increase of 43 per cent. The gross total of registered cars, including commercial cars, was 3,512,996; the number of motorcycles was 250,320.

States collected in registration and license fees \$25,865,369.75. Of this \$23,910,811 was applied directly to construction, improvement, or maintenance of the public roads in 43 states, according to figures compiled by the office of public roads.

The Demand for Aluminum Increases

(By United Press)

Chicago, July 13.—The United States will require 50,000 tons of aluminum a year for aeroplane and motor vehicle construction to carry on the war against Germany, according to Dr. F. C. Weber of Chicago, a chemist and experimental inventor.

This amount of aluminum, Weber says, cannot be obtained from bauxite, its present source. We must use kaolin, or fireclay, which the Germans have been using since their source of French bauxite has been cut off. Weber says this country's supply of kaolin is practically inexhaustible. The largest deposits are in Illinois.

Weber has submitted his theory to the Society of Industrial Engineers, which in turn will take it up with the Council of National Defense.

What Can Be Done In One Day.

"Every day is such a usual occurrence that its true significance does not come home to us," says a writer in the Woman's Home Companion. "We get so used to our days that we are blind to their universal possibilities."

"In the beginning one-sixth of the whole world was made in a day, yet how many of us feel that we can do one-sixth, or even one-hundredth, of all the things we ought to do in one day?"

"Within one day the battle of Waterloo and the battle of the Marne were won. How about all the days between? A man can change the fortune of his entire life in a day."

Loading on the Job.

Mrs. Woman, are you married? If you are we wish you all of the happiness and the best of blessings a generous world can give you. But let us ask a bold question and probably offend you. We do not mean to be impolite. It is just the perversity of human nature to want to know if you married a lazy man—a man who talks in a loud voice about his back yard garden and lets his wife do all the work.—Memphis Commercial Appeal.

Didn't Do It.

Flatbush—He's always knocking the married men.

Bensonhurst—Yes, I know it. "Only a few years ago he told me he was just crazy to get married."

"That's right, but it seems he wasn't quite crazy enough."—Yonkers Statesman.

Caught In His Trap.

"I am in an embarrassing situation," declared Judge Flubdub, former member of congress.

"How is that, judge?"

"Here I am called upon to try to make sense out of a law that I framed myself."—Louisville Courier-Journal.

Musical Note.

Mrs. Jones—Does my daughter's piano practicing annoy your husband? Neighbor—Oh, not at all; Jack can't tell one note from another.—Life.

The employee who has a horror of working overtime will never own the business.—Newkirk.

WEST IS AROUSED AGAINST I. W. W.

Plans Drastic Action to Balk Industrial Plots.

BISBEE, ARIZ., STARTS MOVE

Citizens Organization Leads 1,200 Alleged Members Into Freight and Cattle Cars and Ships Them Out of the Town.

San Francisco, July 13.—Deportations of more than 1,000 Industrial Workers of the World, undertaken in Bisbee, Ariz., centered the eyes of the nation on an agitation which has arisen to considerable proportions in the West after manifesting itself sporadically from coast to coast for years.

From the Canadian border to Mexico, civic, state and military authorities are alert to suppress all disorder. Disturbances fomented admittedly by the organization and ramifying into various branches of industry, carry with them in virtually every instance a demand for higher wages.

German Plot Suspected.

Officials in some states pronounced the movement one to reduce production of supplies necessary to the conduct of the war, but while German influence and financial support was charged by some of them, no direct substantiation of this accusation could be had.

Organizers of the I. W. W., especially in Arizona, were reported to be well financed from sources unknown even to those well versed in the workings of the body.

Strikes are on in the copper mines of Arizona and Montana. They are threatened in the mines of Colorado, Nevada and Utah. There are lumber strikes in Idaho and Washington, with agitation in the lumber districts of Oregon.

Threaten to Destroy Crops.

Threats have been made to destroy the wheat fields of the Northwest and the state council of defense of Washington appointed a committee especially to deal with the Industrial Workers lest harm come to the crops.

A military censorship was placed on Douglas, as well as Bisbee, all telegraph offices and wires being closed, according to a message received here. Long distance telephone was also closed until the train carrying Industrial Workers of the World had left.

COLUMBUS REFUSES MEN

New Mexico Town Forbids Unloading of Deported I. W. W.

Columbus, N. M., July 13.—Nearly 1,200 persons deported from Bisbee arrived here. F. B. King, division superintendent of the El Paso and Southwestern railway, was arrested for bringing in the deportees.

Local authorities refused to permit the men to be unloaded and King was released when he agreed to take the men away and the train was started back toward Bisbee. It was said here the men will be detained at Hermanas, N. M.

TROOP SUPPLIES ARE LOST

Torpedoed Boat Kansas Carried \$18,000 Assortment for Soldiers.

New York, July 13.—War supplies consigned to the American troops in France went down with the American steamship Kansas, reported sunk by a German submarine. They were shipped by the naval war work council of the Y. M. C. A., it was announced here. They included \$18,000 worth of flour, sugar, biscuits, chewing gum, tents, chairs, organs, athletic equipment and other material. They will be duplicated as quickly as possible.

GROWERS FORCED TO GIVE IN

Potatoes Drop to \$1.50 Per Bushel at Duluth.

Duluth, July 13.—The consumer is at last coming into his own, in so far as potatoes go. Hundreds of growers over the north country who had been holding out for even higher prices than those recently paid, now find that they overstayed their market, according to commission house men.

The latter quoted old Minnesota potatoes at \$1.50 per bushel, compared with \$3.25 Monday, and new potatoes are being sold by retail grocers at \$3, against \$4.25 top days ago. Seven hundred bushels of old potatoes sold at \$1.10 per bushel, the purchaser being a retail gracer.

BAER'S LEAD IS OVER 3,000

Returns Nearly Complete in North Dakota Contest.

Fargo, N. D., July 13.—John M. Baer, the Nonpartisan candidate, was elected to congress from the First North Dakota congressional district by a majority of over 3,000, with several precincts missing.

The latest available figures for the three leading candidates give the following:

Baer (Nonpartisan), 11,537; Burnett (Republican), 8,490; Bangs (Democrat), 3,192.

Machine Protection is Very Important This Year

Machine manufacturers state that enough steel for about 75 per cent of the NORMAL machine demand is all they can figure on this year.

The demand for machines, due to big prospective crops, is almost sure to be away above normal with a possibility of the machine companies being unable to deliver.

Save Your Present Machines

by building a shed for them where you can keep them in good condition and protect them from rust and rot.

The shed will surely cost you less than new machines or extensive repairs, and as new machines are not available this season a shed may save part of your crops. See us now for the material for such a shed while the MATERIAL can be had.

Winnor-Adams Lumber Co.

Down Town Office 519 Iron Exchange Building, Laurel Street.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

LOW BLOOD PRESSURE.

First Aid to Those Suffering From Hemorrhage or Shock.

One hears a great deal about the danger of high blood pressure, but not much about the danger of too low a pressure. Yet the latter may be very swiftly fatal. It results often from shock, as well as from severe loss of blood. But there is a very simple means of giving temporary relief, which every one should know, since such knowledge might often be the means of saving life.

A diastolic pressure of fifty millimeters is critical, for the blood tends to accumulate in the abdomen, but death may be avoided if immediate means be taken to raise the arterial pressure. A late number of La Revue gives the following directions:

"The wounded person in whom arterial pressure is low should be placed immediately on an operating table heated by electricity, with his feet elevated for an hour or more some thirty millimeters (about one and one-quarter inches) higher than his head. If the diastolic pressure remains below eighty millimeters an injection of isotonic serum should be made and if necessary repeated. If the pressure does not remain sufficiently high after the second injection another injection is made of adrenalin into a vein, preferably a vein near the head."

It will be noted that the first part of these directions can be carried out by any one—namely, the application of warmth and the raising of the patient's heels higher than his head. This is so important and so efficacious that the famous French physician and research scientist, Dr. Charles Richet, has made it a practice in his lectures to students to give them the striking object lesson of a dog which had been bled almost to the point of exhaustion, so that death was imminent, being instantly revived by this simple expedient of changing its position. When he was apparently dead while the head re-

mained higher than the extremities, as soon as the head was lowered the waning life returned.

First aid to the injured, therefore, suffering from hemorrhage or shock is to place the victim on a mattress or bench and raise the feet slightly higher than the head.—Review of Reviews.

Stepping Stones to Success.

Picture what you want. Visualize it. Dramatize it. Rehearse it. Make your mental picture clear. Focus your attention on it. See it over and over a thousand times.

Improve it; empower it. Put your inspiration into it. Have dynamic interest in it. Awaken your sleeping genius. Expect success; laugh at failure. Be confident and poised. Rest in accomplishing.—Nautilus.

Sovereigns in Bolivia.

Bolivia has a strange connection with Great Britain in the fact that the English sovereign is the standard gold coin. This is minted from local gold at the capital of the country, La Paz, along with the Peruvian half sovereign, which also is legal tender. Although Bolivia is as yet quite a "new" country and has not had time to adopt a coinage of her own, she has found an opportunity of establishing state monopolies on alcohol, spirituous liquors and tobacco, rendering the prohibition of them at any time an easy matter.—London Chronicle.

MARKET DAY REPORT MADE

Special Market Committee Headed by
P. B. Nettleton of
BRAINERD

CHAMBER OF COMMERCE ACTIVE

A Good Market is a Valuable Asset
to the Entire Community
Town and City

The following is the report on a
BRAINERD market made to the Chamber
of Commerce by the special committee
so appointed:

To the BRAINERD Chamber of Com.

Your special market committee reports progress as follows: We met last night with the committee appointed by the city council. After full and free discussion it was decided that we favor a full consideration of the whole question by all parties interested with a view to establishing, if possible, the very best public market in central Minnesota. To do this we realize that it can only be done by having the combined support of those most interested both in the city and county. We favor trying for a market place second to none with like surroundings. One that if properly started and managed, will be a credit and profit to the whole community and one that while it may be started in a small way yet one that will grow to become a valuable asset to the entire county. We stand for a public market that will be all that the name implies, not for a market for truck gardeners only, but for a potato market and warehouse such as will choke our streets with farmers trucks every fall, fill our hotels with buyers and shippers and our stores with cash customers. It would also mean a large and convenient stock market with scales off from a crowded business street.

Also a good market for all kinds of grain, wood, wool, hay, seeds, poultry, rabbits and everything marketable.

In order that ways and means may be devised and the feasibility and desirability of such an undertaking be decided or discussed, pro and con, it is recommended that the following committees be appointed by the organizations named. The Chamber of Commerce, already named, 3; the city council, 3; the BRAINERD Business Men's Association, 3; the County Federation of Farmers' clubs, 3; the Farmers Clubs, each 1; the county commissioners, 3.

The name of those selected by their organizations to be furnished to the chairman of the Chamber of Commerce special market committee who will then call a meeting of this joint committee on a date to be decided later. When this whole question can be threshed out and a decision made as to whether to go forward or not. We also recommend that a copy of this report be immediately furnished to the president of the Federation of Farmers' clubs and that he be asked if he so approves, to give publicity to this proposed movement at the coming community picnic Saturday, July 14th, 1917, at Long Lake.

P. B. NETTLETON,
Chairman.

* RED CROSS WORK *

Officers of the Crosby-Ironton Branch
Confer With BRAINERD
Workers

Officers of the Crosby-Ironton branch of the Red Cross were in BRAINERD and conferred with local workers. They motored to BRAINERD in P. N. Houghton's car.

The officers recently elected there were president, Mrs. P. N. Houghton, Crosby; vice president, Miss Agnes I. Lamb, Ironton; secretary, Miss Anna Severance, Crosby; treasurer, Mrs. A. R. McGuire, Ironton. The movement is gaining ground for the miners and others on the range one day's wage to the Red Cross.

MERCHANTS TO PICNIC

Large Majority Will be Represented
at the Community Picnic Saturday Afternoon

The large majority of the merchants of BRAINERD will be at the community picnic at South Long Lake Saturday in person and with their families, prepared to spend a happy day of recreation.

From talk one overhears it seems that most of BRAINERD has made up its mind to go. Then in the evening there will be scores of automobile parties too who may have been unable to get there in the afternoon.

The Lum park bus will start for the picnic at 9 in the morning.

BRAINERD WON BY A MILE

BRAINERD Council United Commercial
Travelers will Hold a Picnic
and Initiation

AT LITTLE FALLS ON JULY 21

A Goodly Number of Little Falls
Candidates will Ride the Goat,
Fine Degree Work

(St. Paul Pioneer Press)
Little Falls is thirty-one miles from BRAINERD and thirty-two miles from St. Cloud. This is the official decision of the United Commercial Travelers. The distance is on an air line.

Because of the decision, the BRAINERD council will hold a picnic and initiation at Little Falls, July 21. According to automobile roads and railroads, the distance from St. Cloud and BRAINERD to Little Falls was reversed, which would give St. Cloud jurisdiction over the initiation.

A number of Little Falls travelers will ride the goat.

* ROLL OF HONOR *

Edgerton Brooks, who enlisted in the officers' reserve corps of the army, at Minneapolis, has been assigned to the quartermaster's department with the First Minnesota. He was told he would be called soon.

R. J. Hayes, assistant manager of the Western Union at Duluth, will be at BRAINERD a few days while Herbert R. Denzine, the local manager, is taking an examination to join the signal corps.

MRS. CARRIE MELINDER

Pillager Lady Died at Local Hospital,
Endured Much
Suffering

Mrs. Carrie M. Melinder, widow, resident of Pillager, passed away at a local hospital and the remains were sent to her former home for burial. She was 46 years old and leaves several children. Death came from nephritis, further aggravated by a fractured hip she sustained two weeks before her death.

CEMENT PAVING

Contractor Dahl Has Half Block Strip
Laid Near Northwestern
Hospital

Cement paving is in full progress on the north side where Contractor Dahl of Duluth has made a start of half a block near Northwestern hospital. His total contract is 17 blocks. Broadway is to be made a beautiful thoroughfare with a park strip in the center.

Card of Thanks

We sincerely thank our neighbors and friends, the Woman's Relief Corps, Lady Maccabees, B. of L. P. & E. of Duluth, Ladies of the First Presbyterian church and Northern Pacific employees for their many acts of kindness shown our mother during her four years of sickness and their kindly sympathy in our recent bereavement. The beautiful floral offerings given as tributes to her will always be treasured by us in grateful memory.

MISS LILLIAN LAWRENCE,
MRS. F. N. JOHNSON,
MISS MARIE LAWRENCE,
H. R. LAWRENCE,
A. J. LAWRENCE.

LOCAL AGENT WANTED

We have an exceptional proposition for a live agent in BRAINERD, a man of good address and force, able to finance himself until started. Can build up on sure growing profitable business. Call on Mr. Forsyth, Iron Exchange Hotel Friday and Saturday. 341p

RED CROSS AT THE PICNIC

BRAINERD Chapter to Have a Booth at
the South Long Lake Community
Picnic Saturday

SPEAKERS TO EXPLAIN WORK

Exhibit of Surgical Dressing Given
to the Chapter by the St. Paul
Headquarters

At the community picnic at South Long Lake, the BRAINERD Chapter of the Red Cross will have a complete exhibit of the articles to be made by the women of BRAINERD and Crow Wing county for our soldiers and the allies.

There will be ladies at the booth all day to explain the Red Cross and answer questions concerning the work. It is hoped the ladies of the county will be interested in this exhibit as in a short time every one will be asked to aid in this work.

The exhibit of surgical dressings was given to the chapter by the St. Paul headquarters especially for this exhibit. A group of BRAINERD ladies expect to be making dressings in a few weeks but will be obliged to wait for a trained worker, as this work can only be done under the direction of one who has had special training in this department and there are few trained workers available at present.

The exhibit will be in charge of Mrs. B. J. Broady, chairman of the extension committee, and Mrs. Bertha Theviot, chairman of the membership committee.

SHOT AT FOR DEER, WOUNDED

Although this is a closed season for deer and for men too, a fellow in the woods near Kimberly took two shots at young David Peterson, age 23, mistaking him for a deer in the twilight.

The first shot was a glancing one and went through the right shoulder, giving a bad flesh wound and narrowly grazing the spinal column. Peterson yelled and the hunter, who must have had buck fever, followed with a second shot. The near tragedy happened nine miles from Kimberly. A Ford was impressed into service, the man hauled to the train, and brought in last night and given further medical treatment by BRAINERD doctors at a local hospital.

SELL MANY CARS

Rosko Brothers Have Sold Dodge Cars
to Many Farmers, Sale of
Trucks Increasing

Rosko Brothers report these recent sales of Dodge cars, to Joseph Rosko, Sr., of BRAINERD; Henry Stedfeldt, route No. 3; Arthur Doucette, Fort Ripley; Fred Houle, Fort Ripley; Victor Peterson, Isle; William Peterson, Little Pine.

International trucks were sold to W. E. Lewis and Felix Graham. The use of a one ton International truck was given by Rosko Brothers to carry the lunches and picnickers of the Congregational Sunday school to Lum park Wednesday.

At Clearwater Lake

Con O'Brien was host at his summer home at Clearwater Lake, entertaining at dinner Thursday evening, Col. C. D. Johnson, Ed Levant, James Murphy, C. A. Albright, Judge W. A. Fleming, Henry Spalding, S. F. Alderman, R. J. Hartley.

Obituary

Alfred Canfield was born in Bird Island, Minn., March 15, 1892, came to BRAINERD with his parents in the year of 1901. Alfred attended school here and has been in BRAINERD most of the time. For the past year he has worked at Ironton and was well thought of by all. In 1914 he married Grace E. Walker.

He leaves a wife, little boy 2 1/2 years old, father, step-mother and sister, Mrs. Frank Jordan, and four brothers. His brother, Maurice, could not be located to get here in time for the funeral.

MODEL LAUNDRY

The Model Laundry will be open tonight and until 10 o'clock Saturday morning, closing then on account of the Community Picnic. 1t

NOTICE

Those indebted to me for groceries, please pay up. At end 30 days accounts will be placed in hand attorney for collection. 341p G. S. SWANSON

Calvary.

The word Calvary occurs only in Luke xxi, 33. Biblical commentators say that the popular expression Mount Calvary is not warranted by any statement in the accounts of the place of the crucifixion of Jesus.

METHODS OF WAR NOT TO BE BLOCKED

Constitutional Objectors Won't Be Allowed to Interfere.

LAWS MUST MEET NECESSITY

During the Progress of Previous Wars This Procedure Was Followed—Violations by President Lincoln — Supreme Court Usually Falls In Line. President to Remain In Washington.

By ARTHUR W. DUNN.

Washington, July 13.—[Special.]—Constitutional impediments are not going to be allowed to stand in the way of methods and means to successfully carry on the part the United States must take in the war. What is necessary to do must be done even if the venerable document is strained at times.

Constitutional objections are made to many progressive ideas. Things are now constitutional which a few years ago would have been declared void by the supreme court. Such legislation as the child labor law and the different liquor laws would have been unconstitutional a few years ago, but the ideas of judges advance with the ideas of the people. It was our friend Dooley who remarked that the supreme court generally followed the election returns.

As It Was In a Great Crisis.

Over and over again during the civil war it was asserted that President Lincoln violated the constitution in his efforts to preserve the Union. Later when congress passed the greenback law, a war necessity, it was attacked as unconstitutional, and it was unconstitutional, but because it was a war necessity the supreme court upheld it. There were unconstitutional acts during and following the Spanish war. We had no constitutional warrant to hold and administer the Philippines, but it was done. Later the supreme court made an unconstitutional decision in regard to the islands, but it was necessary if the United States was to retain control of those distant possessions.

In the present war congress and the president will do what is necessary to make our part a success even if the constitution is strained and perhaps broken in places.

President In Washington.

If the war makes it necessary for the president to be in Washington it is well to know that provision has been made for his comfort, save as the hot weather may be uncomfortable, and even that can be mitigated to some extent. In the mornings the president motors to the golf links among the Virginia hills. In the evenings when he cares to do so he can take river rides on the Mayflower or Sylph. But even at the White House he can be comfortable, for that is one of the best places to live in the whole capital—roomy, airy and exclusive. The White House is safe these days, for nightly there is a patrol of soldiers about the entire grounds.

Comforting Prediction.

Senator Reed of Missouri, who was so bitter in his opposition to the food control bill, made this comforting prediction in the course of one of his many speeches:

"If you wait thirty days you will find the food prices so low that you will want to boost them up."

Huddleston Laments.

Congressman Huddleston of Alabama has had a hard position to fill. He succeeded Oscar W. Underwood, who was the most prominent member of the house, and Huddleston has had difficulty in keeping the district in the limelight. Here are a few of his remarks made recently, which show that he is willing to make the effort. He was speaking of what he called a "hold up" in regard to the Niagara water power:

"If we are going to stand for this sort of thing, if we are going to allow the government to be held up by these war contractors who belittled so loudly for war and wanted it so much—"

(By way of interruption, that ought to let out the newspapers who are charged with having brought on the war.) But Huddleston went on:

"Oh, I wish we had a congress and officials that had backbone. I wish that the American congress and the men in executive positions would refuse to submit to such highwaying in this time of our nation's peril!" But whatever it was all about, congress went ahead despite this impassioned protest.

Meeker's Contribution.

A very interesting contribution to the literature and statistics on the liquor question was made by Congressman Meeker of Missouri, who opposed the bone dry provision in the food control bill. An impressive feature of the speech was contained in a long list of drugs containing alcohol, patent medicines mostly, which are used very extensively in dry regions because they give those who crave alcohol an opportunity to get it, although they have to take quite a quantity of other ingredients at the same time.

However, neither this kind of speeches nor other efforts of those opposed to prohibition can stop the movement. It continues to advance.

CATHEDRAL CHOIR TO SING OLD HYMNS AND ORATORIOS

The Cathedral Choir is all that its title suggests—an interpreter of the most beautiful religious music the world has known. No company has ever achieved a more marked success than has this organization. The work of these artists is a revelation to most listeners, carrying them to heights of musical and religious feeling. Each member has been chosen for his or her especial fitness for this particular type of organization, so that the Cathedral Choir as presented is a brilliant company.

PURPOSE AND PLAN

Organizers of the Cathedral Choir believed that the grand old religious classics, the arias of sacred theme and the majestic hymns of the church were being neglected. They knew that, aside from their religious themes, the quality of music presented in the best numbers of sacred musical literature has never been surpassed.

GRAND OLD HYMNS

Who can measure the influence of these great songs in religious worship? These songs have swayed the human heart and soothed the human spirit

through all the changing fortunes of national life and the shifting ideals of civilization. They have not died because they are immortal. They have a ministry of unspokeable worth to perform down to the end of time.

In this day of strife and bloodshed when old ideals are being swept away and we need the eternal Rock of Ages as never before, what could strengthen the faith more than to hear a company of superb singers ring out the stirring "A Mighty Fortress Is Our God"? Or that favorite hymn of Cannon Liddon, "Oh God, Our Help in Ages Past." In times like these such hymns come like the benediction after prayer—like the soft embrace of the first warm rain of summer.

REAL ARTISTS

The Cathedral Choir is composed of nine people, including the accompanist. The nature of the program is such that only artists could do it justice. These singers have strong native ability, refined and tempered by years of study. Most of them have held responsible positions as soloists in big churches before becoming members of the Cathedral Choir. They will wear the vestments of the Cathedral.

With Chautauqua at Brainerd Aug. 9 to 13

ENTIRE MINISTRY TO QUIT, REPORT

Proclamation From Kaiser Is Imminent, Holland Hears.

REICHSTAG DEMANDS POLICY

Main Committee Refuses War Credit Vote Until Informed Regarding the Peace and Reform Moves—Ministry Refuses to Grant Demand.

Amsterdam, July 13.—A rumor has reached Holland that the entire German government will resign with Imperial Chancellor von Bethmann-Hollweg, the main committee of the reichstag having refused to vote a war credit unless the government declares its policy regarding peace and reform, which the government has declined to do. An imperial proclamation is considered imminent.

Letter Brings Resignation.

The Vossische Zeitung and Lokal Anzeiger, both of Berlin, agree that the chancellor resigned owing to a letter from the center, or clerical party, declaring that the conclusion of peace would be made more difficult if he retained his office.

A telegram from Berlin says that it was the intervention of the crown prince that caused the chancellor to tender his resignation.

Heir Meets Parties.

Another dispatch reports that the crown prince held an audience with representatives of all the political parties including the Socialists.

A new sitting of the German crown council began in the presence of the crown prince, according to a telegram from Berlin quoting newspapers there. The results of the German political crisis, with its portentous displays of extraordinary crown councils, consultations with the heir to the throne, the formation of insurgent majorities in the reichstag and a storm of press excitement, are, in the first indications at least, comparatively small.

"This fashion article telling 'how to trim a hat for the price of the frame' is all well enough as far as it goes," remarked Mrs. Smallmeans. "But what I would really like to know is 'how to trim a husband for the price of a hat.'"

LANE DEFENDS WAR ADVISERS

Secretary Asserts Defense Council Members Act Honestly.

Washington, July 13.—The relation of business men to the government was described by Franklin K. Lane, secretary of the interior, and one of the six cabinet members who compose the Council of National Defense.

Answering talk in congress and elsewhere suggesting that members of the council are in a position to make contracts with themselves and thus derive personal profit from the war, Mr. Lane said the business men composing the advisory commission have no control over contracts and in fact give to the government infinitely more than they receive.

BOMB TRIAL LAWYER FINED

Attorney in Mooney Case in Contempt of Court.

San Francisco, July 13.—Attorney Edwin V. McKenzie of the defense in the trial of Mrs. Rena Mooney for murder was fined \$50 for contempt of court by Judge Emmet Seawell when he remarked after the court had refused to permit a photograph to go in evidence, "and you call this a fair trial!"

"You are fined \$50 for contempt," Judge Seawell said.

"Another crown of thorns pressed down on the brow of labor," McKenzie retorted.

"A little more of that talk and you will not appear in this trial again," Judge Seawell said.

IOWA LEADS THE COUNTRY

Has One Automobile for Every Eleven Inhabitants.

Washington, July 13.—There is one automobile for every twenty-nine inhabitants in the United States, according to figures for last year made public by the federal public roads bureau.

Iowa, with one car for every eleven inhabitants, leads the country in the number of machines registered in proportion to population. California, Nebraska and South Dakota ranked next in order. Arkansas, with one automobile for every 116, is at the foot of the list.

Helps Asthma and Hay Fever

Now comes the season when hay fever and asthma cause thousands to suffer. "I have been troubled for years with asthma," writes E. C. Schaaf, Creston, O., "and find Foley's Honey and Tar the only thing that gives me relief. It loosens the phlegm so I can throw it off and then sleep." Contains no opiates. H. P. Dunn.—Adv.

IN CONFERENCE AT HAGUE

Former American Girl Is British Diplomat.

London, July 13.—One of the British representatives at the recent Anglo-German conference at The Hague in reference to war prisoners was Mrs. Darley Livingstone, young American wife of a British officer and secretary of a government committee concerning the treatment of British prisoners in enemy countries. She is the first woman to have been engaged in diplomatic negotiations in behalf of Great Britain.

PACKERS HIT BY EMBARGO

Had Big Contracts With Neutrals for Meat Supplies.

Washington, July 13.—Chicago packers are first to be hit by the new government embargo.

They have an infinity of contracts for delivery of fresh and smoked meats, lard and all the rest of the stockyard products to Holland, Norway, Sweden and Denmark, and they want to know how they are to fulfill these contracts in the face of a notice from England that all freight reservations for meat on English ships going to these countries are canceled after Aug. 1.

The packers have told Secretary Redfield there is a forfeit clause in the contracts that means big money loss to them in the event of their failure to supply their products in the quantity and within the time specified.

WOODEN SHIP FLEET WINS

Ship Board Empowered to Commandeer Appropriation.

Washington, July 13.—The government shipbuilding program was given an impetus by an order of President Wilson, giving the United States shipping board power to commandeer the \$750,000,000 emergency fleet appropriations.

Charles Denman of the board, who announced receipt of the order, indicated it is a victory for the wooden ship program.

General Goethals had hoped to be designated sole authority over the spending of the money, but he opposes a large wooden fleet.

Wool Drying.

Wool drying is one of the principal and serious operations in the woolen industry. The more gently and uniformly the wool is dried the better is the result attained, for should the wool be slightly damp in some of its parts the dye does not take well, and the result is an unevenly dyed yarn, which shows in the texture of the woven goods. Overdyeing is also bad.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezeone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus. You are further warned that cutting at a corn is a suicidal habit.
